## Ralston Health Shoes

not only attract trade but they also hold it. We've proved it!

Why do they do it?

1st. Because Ralstons have no superiors in style and workmanship among shoes that sell for any where near the same price.

2nd. Because of the anatomical construction of Ralston lasts (shaped like the bottoms of your feet) they have no equals in fitting qualities.

Ralstons need no "breaking in."

3rd. Ralstons wear longer and retain their shape longer because aside from the superior materials which they certainly contain, they fit properly and there is no undue strain on any part.

We'd like to show you our Fall styles.
